THE GREAT SPRING TONIC.

W.H. GIBERT, Druggist, Albany, Ga., writes: "We are selling large quantities of over Spectric (S.S.S.) for a spring alterative and general health tonic, and with best results. It is now largely used as a preventive and cure for Malaria. There was remarkable evidences of its merit in this section."

Rev. L. B. Paine, Macon, Ga., writes: "We have been using Swine's Specific at the Orphan's Home as a remedy for blood complaints, and as a general health tonic, and have had remarkable results from its use on the children and employees of the institution. It is such an excellent tonic, and keeps the blood so pure, that the system is less liable to disease. It has cured some of our children of Scrofula."

NEW PROCESS ELIXIR CORN WHISKEY

Caputactured for Medicinal Purposes-Pure, Sweet, Mild, Mellow. Full 100 Proof, Full Measure—The only Whiskey that is Purified in its Vapor State.

FFORE it is condensed it passes through two large Purifiers, filled with charcoal, pumice-stone and their substances which absorb fasil oil, verdigris and other deleterious matter.

The only process that purifies the backings or singlings.

Whiskey manufactured by this process receives five distinct boilings or distillations before it reachitle first purifier. It is well known that double-distilled Whiskey is better than single-distilled; herefore, the New Process Elixir Corn Whiskey is superior to double-distilled Whiskey.

After it is condensed it passes through three other Purifiers filled with charcoal, fiannel, pumice-tone, sponges, sand, &c., which removes every impurity that is not taken up by the first Purifiers.

The New Process is manufactured from the best corn and malt, and only the purest mountain wa-FOR SALE ON AND AFTER JULY 22 BY

Mail Cars. Nearly every railroad in the United States carries, at least once a day, one or more men whose business it is to receive, sort and deliver the mail gathered at the towns along or near that road.

If there is little work to be done, one car. As the business increases, two or more men work together, having a whole car for their accommodation. This car is drawn directly behind the engine, so that there shall be no occasion for any passing through it. With still more business, between the larger cities, two or more cars are run; until between New York and Chicago we have a whole train run exclusively for the mail service, made up of five cars and worked by twenty men. A line of railroad between two cities used in this way for sorting the mail is called an "R. P. O.," i. e., "Railway Postoffice," and there is an immense number of such in the country, taking their names from the chief office on the

Such are the "Boston and Albany," "Boston, Springfield and New York," "Portland and Island Pond," "Chicago and Cedar Rapids," and many hundred others. The runs vary greatly in length, ranging from twenty miles to as high as a thousand miles. The extremely long runs, with the exception of the "New York and Chicago," are found only in the West, where there are great distances between the cities. On such a run there will be two or more men, one crew sleeping while the other works. The "New York and Chicago" is divided into three sections. On this run, the twenty men who start out from New York are relieved by as many more at Syracuse, and these in turn are relieved at Cleveland by another company who take the train into Chicago. As a general thing, however, a run is planned to be about the distance which can be covered in a day.

On all the more important lines there are two sets of men, one for day and one for night service. If the run is a short one with but little mail, one man does the work alone, running every day, and usually having several hours to rest at one end of the road or the other. Where the run is long enough, so that the trip takes all day, there will be four sets of men. One man, or set of men, starts at one end of the run and covers the entire line, meeting the other somewhere on the route and returning the next day. When these men have worked a week, they go home to rest a week, and the others take their places. Such is the arduous nature of the work, the strain to mind and body, and particularly to eyesight, from work-ing all day long in the constant jar and rattle, that few men would be able to retain a place were it not for these periods rest.—St. Nicholas.

Confederate Money.

A large number of Confederate bills, of denominations ranging from \$1 up to \$500, have been sold lately in this city. The notes bring various prices, the \$1,000 bills selling for as much as \$25 apiece. Tnese, however, are very rare, only two or three of them ever having been offered here.

Mr. E. M. Moreland, who deals extensively in these pecuniary souvenirs of the Lost Cause, was seen lately by a World-Budget reporter, and gave some interesting information concerning them and the demand for the bills.

"I have sent West recently," said Mr. Moreland, "over \$128,000 of the notes, and have a sale for all I can get. Almost all of them find Western purchasers. A number are undoubtedly bought simply by curiosity seekers, but a very curious story was told me about their use by a Western merchant who visited Charleston a short time ago. In the order Western States and Territories. where the train robber still disturbs travel, the mercantile passengers and drummers provide themselves with fa packages of Confederate notes, which they buy at a small expense. A greenback or two is placed on each end, giving the packages the appearance of a solid mass of United States currency. When the train robber comes, and the traveler is commanded to stand and deliver, the package of Confederate bills is handed him. He has too little time, of course, to examine the bills, and probably does this at his leisure, and somewhat to his amazement and consternation."- Charles.

The Largest Farm in the World.

There is a farm in the southwest part of the State of Louisiana measuring one hundred north and south and twenty-five miles east and west. The one and a half million acres of which it is made up were purchased seven years ago from the State of Louisiana and from the Buffalo, in Jackson county, W. Va., United States Government by a syndicate of Northern capitalists by which it in the past ten years than any other man is now farmed. At that time it was a on earth. He has averaged 210 miles per vast grazing ground for the cattle of the | week for 519 weeks, making in all about few dealers in the neighborhood, there | 110,000 miles, or about four times the being thirty thousand head of cattle and horses upon it. The immense tract is now divided into convenient the next trip carried a small cookstove pasture stations, or ranches, the fencing alone having cost fifty thousand dollars. The land is best adapted for rice, sugar, corn and cotton. All the cultivating, ditching, etc., are done by steam power, a tract of about half a mile wide being taken aud an engine placed on each side. The engines are portable and work a cable attached to four ploughs. the area ploughed in this way, with the labor of only three men, being thirty acres. Harrowing, sowing etc., are done in the same way, and there is not a single draught horse on the estate. Horses are however, used by the herdsmen, who look after the sixteen thousand herd of cattle upon the estate, which is traversed for thirty-six miles by the Southern Pacific Railway. The company has three steamboats upon the three hundred miles of navigable waters which traverse their estate, and also possesses a ship yard, a bank, and rice mills.

ADVICE TO WOMEN

BRADFIELD'S FEMALE REGULATOR

CARTERSVILLE, April 20, 1885.
This will certify that two members of my immediate family, after having suffered for years from Menstrual Irregularity, being treated without benefit by physicians, were at length completely cured by one bottle of Bradileid's Female Regulator. Its effect is truly wonderful. J. W. STRANGE. Book to "WOMAN" mailed FREE, which contains valuable information on all female diseases. BRADFIELD REGULATOR CO., ATLANTA, GA. BOB SALE BY ALL PREGGISTS.

Sell When There's a Demand,

A year ago, when cotton was selling at 121 cents per pound, and the largest crop in the history of the South was about being picked, the farmers' organizations were as busily engaged in pledging producers to "hold their cotton" in order to maintain high prices as the Alliance people are to-day in advising growers to "hold their wheat.' The price of cotton man does it alone, in a small room, built has not been as high since last July as its in a part of the baggage car or smoking was at that time; and it is to day in abundant supply at 8 cents per pound. As the New York Commercial Bulletin points out in an article on this subject, there is a lesson to wheat producers in the story of the last cotton year that may be studied with profit throughout the graingrowing districts. The time to sell is when everybody wants to buy; and the holders of wheat who act on this truism will probably come out with better balance on the profit side of their books than will those who shall hold their grain until somebody else shall have supplied the demand .- Philadelphia Record. The Obedient Boy.

> I read a very pretty story the other day about a little boy who was sailing a boat with a playmate a good deal larger than

The boat had sailed a good ways out in the pond, and the big boy said : "Go in, Jim, and get her. It isn't over your ankles, and I've been in after her every time."

"I daren't," said Jim. "I'll carry her all the way home for you, but I can't go in there; she told me I mustn't dare to." "Who's she?"

"My mother," replied Jim, rather

"Your mother! Why I thought she vas dead," said the big boy.

"That was before she died. Eddie and I used to come here and sail our boats, and she never let us come unless we had strings enough to haul in with. I ain't afraid; you know I'm not; only she didn't want me to, and I can't do it." Wasn't) that a beautiful spirit that made little Jim obedient to his mother

even after she was dead?

A Deaf and Dumb Policeman.

There are many positions that a deaf mute can fill as well as a man in posses- people of Anderson and vicinity. Will sion of all of his faculties, but patrolling a beat as a policeman is about the least likely occupation in which a deaf and dumb man might be expected. Cleveland, O., however, has, or had not long ago, a deaf and dumb policeman, who has walked a beat for years and never Strickland & Anderson given occasion for complaint. It is said he lost the power of hearing and speech by a stroke of paralysis, but recovered his health without regaining all his faculties. He was on the force at the time and begged to be retained. The authorities were loth to discharge

him, so gave him a trial. He proved as efficient as the others, and so held his position. He wore a badge, "Deaf and Dumb Policeman," but answered in writing any questions that were asked him as intelligently as any one. As he cannot hear a sound, he is obliged to be more than usually watchful; his eyes are always on the move, and he sees everything that occurs in his vicinity.-St. Louis Democrat.

Negroes For Mexico

CHICAGO, Aug. 16 .- W. H. Ellis, of Texas, who is actively concerned in the scheme to colonize a large number of Southern negroes in Mexico, is in the city. Speaking of the plan to-day, he said he believed that if a few negroes were to colonize a State in Mexico they would own it in five years and be as prosperqus as Americans.

The project is favorably received by all but colored politicians, "besauce to-day," said Ellis, "we are suffering more in the South than at any time since the days of slavery." Ellis thinks the loss of a large number of colored laborers would do more than anything else to solve the race problem in the South. The concessions which have been obtained from the Mexican Government embrace lands in the States of Vera Cruz, Queretaro, San Luis Potosi and Osiaca.

In cotton Ellis asserts the colonists will have the benefit of a market price almost double that of the United States. The cotton is perennial there, he says, and not planted every year as here, and half a bale an acre more can be raised. Ellis says that he already has the names of 6,000 persons who desire to go from various Southern States .- New York

- The people of this country use three times as much writing paper as those of any other nation, in proportion to their

number. - R. M. Duffield, aged 70 years, mailcarrier between Jackson court house and claims to have walked a greater distance circumference of the earth. A few weeks ago he carried a plow ten miles, and ontwenty-five miles.

ONE ENJOYS Both the method and results when

Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it o all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute. CALIFORNIA FIG SYRUP CO.

HARRIS' nol and Lithia Watana

ANALYSIS. CALCIUM Sulphate 80.29, Carbonate of Soda 10.78, Carbonate of Potash 2.44. Carbonate of Iron 1.15, Carbonate of Lithia 0.95, Sulphate of Magnesia 1.50, Chloride Sodium (common salt) 0.71, Insoluble Resolution

TESTIMNNIALS,

Mr. Harris has received a number of testimonials from persons who have been cured or benefited by the water, and a few of them are here incorporated. Dr. J. T. Poole, one of the best physicians in Laurens County, writes as follows on March 27, 1891: "This is to certify that I have been prescribing the Lithia Water from the springs of J. T. Harris, Waterloo, S. C. I regard it equal if not superior to the celebrated Glenn Springs water, and take pleasure in recommending it to the public for stomach, bowel and liver disorders, and especially for diseases of the kidneys and bladder."

Waterloo, S. C., March 19, 1891.—This is to cer-

and especially for diseases of the kidneys and bladder."
Waterloo, S. C., March 19, 1891.—This is to certify that I have used, and recommended to be used, the water from the Harris Lithia Springs at Waterloo, and take great pleasure in saying that it is nearer a panacea for all diseases of the liver, kidneys and skin, either acute or chronic, than all other remedies that have fallen into my hands during thirty years of active practice."

Laurens, S. C., March 15, 1891.—Mr. Harris—Dear Sir: For sometime I suffered intensely with Gravel affection. I tried every remedy that was obtainable, but without any relief. Had given up hopes of ever being cured. Some one recommended your Lithia Water and I tried it faithfully and was cured. After using one case of the water I was cured. After using one case of the water I passed five or six gravels. I cannot say too much in its praise. W. D. BARKSDALE.

in its praise.

Laurons, S. C., April 24, 1891.—Mr. J. T. Harris—
Dear Sir: I have been a sufferer for some time from an affection of the kidneys. I have tried a number of remedies without any relief. Sometimes the pain in my back was so severe that I had to have help to get up when sitting down. Some of my friends asked me to try your mineral water. I did so and the result was most gratifying. I felt relief after the first day. After using it a week I was entirely well. It has been some six weeks since I first used it, and my general health is greatly improved. Too much cannot be said in its praise. It is undoubtedly the best water I know of.

Laurens, S. C., March 11, 1891.—Mr. J. T. Harris

of.

Laurens, S. C., March 11, 1891.—Mr. J. T. Harris
—Doar Sir: I have suffered with dyspepsia and Indigestion for twenty years and have used Glenn
Spring's, Hawthorne, and other mineral waters,
but after using your Lithia waters a short time, I
feel that I've been benefited more from its use
than any I've ever used.
